Projects

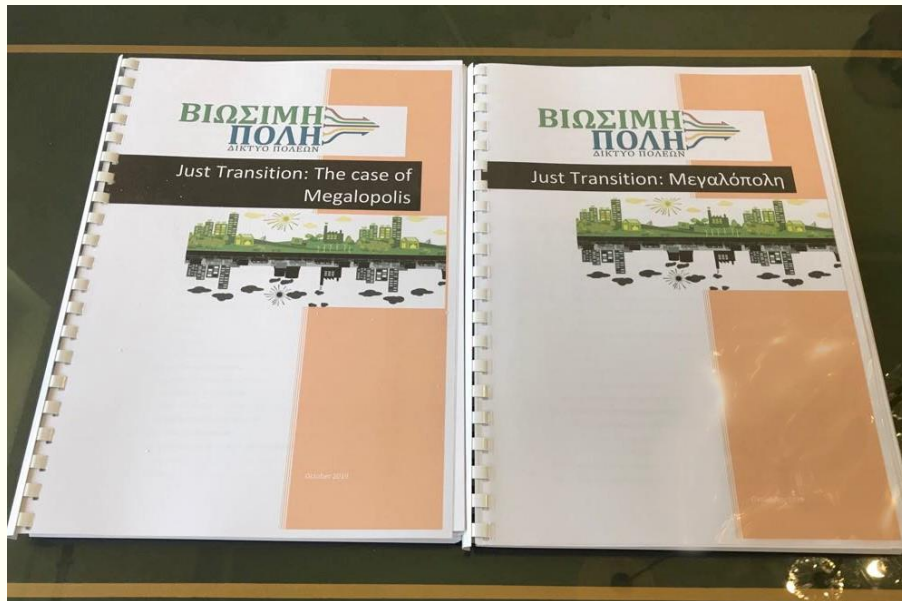

Actions:

- Networking
- Proposal submission – coordination
- Supporting for programs - projects
- Technical Assistance
- Implementation

Megalopoli – Energy Transition

Technical Assistance has been approved by DG Energy after Sustainable City's proposal. A new master plan is being developed and coordinated by SUSTAINABLE CITY network. DG ENERGY executives will visit the area on February 17 – 19, 2020.

European Initiative “WaysTUP!” (H2020)

- Turning urban biowaste into a resource is major key to a circular economy. The project “WaysTUP!” aims to demonstrate the establishment of new value chains for urban biowaste utilization through a multi-stakeholder approach in line with circular economy.
- The project is designed to showcase a portfolio of new “urban biowaste to biobased products” processes starting from different feedstocks i.e. fish and meat waste, spent coffee grounds, household source separated biowaste, used cooking oils, etc.

European Initiative “Living Streets” (EUKI)

- The goal of the project is to use Living Streets to turn streets into social hubs, to rethink the municipalities' decision-making processes to involve citizens more while enabling more interdepartmental cooperation, and finally to improve the quality of life.
- A call for Living Streets in Greece will be organized. 2 cities will be selected to implement the Living Streets.

European Initiative “POWERPOOR” (H2020)

- The main objective of POWERPOOR is to develop programs for energy poor citizens and encourage the use of alternative financing schemes (e.g. establishing energy communities / cooperatives, crowd funding).
- POWERPOOR will facilitate experience and knowledge sharing, as well as the implementation of small-scale energy efficiency interventions and the installation of renewable energy sources, increasing the active participation of citizens.

Galop

Έρευνα για τη Διερεύνηση των απόψεων - απαιτήσεων και προτεραιοτήτων των δημοτών, για τη νέα δημοτική αρχή

για το Δήμο ...

Sustainable city organizes galop for municipalities.
Citizen's opinion is very important.

Thank you
